What makes this different from other “no going back” sagas is how the authors have engaged with their neighbours and helped keep an isolated community alive.

Corfu Sketches is a hardback with **200 large sketches, many in colour, of the World Heritage Site of Corfu Town, the villages and village life.** The publisher has taken the enlightened step of providing a series of carefully designed walks * to bring the observer through the areas of Corfu town which Nicholas has been recording and many of which are unchanged. This is a remarkable book, offering testament to a lifetime lived in what Edward Lear described as one of the most beautiful places in the world.

Irish Flames

Irish Flames is a thriller based on the intimate memories of Peter Waller – a boy growing up during these troubled times. Stories of the brutality of the Black and Tans have been passed down through generations of families but now the words of an eye-witness can show us what it was really like. Anybody with even a little Irish blood in his or her veins will find this story a remarkable account of the end of British Rule.
